

JUNIOR COACHING CURRCULUM

NATIONAL JUNIOR COACHING CURRICULUM

The National Junior Coaching Curriculum has been designed for coaches of ages 7–12 and has been developed to improve the transition rate from NAB AFL Auskick to Junior football and to increase player retention in the game. This will be achieved by:

- Improve the quality of coaching at Junior levels and thus subsequent experiences of the kids that play junior footy,
- Build on the NAB AFL Auskick philosophy of high energy and high touch sessions using small sided games,
- Provide national consistency in the standard and delivery of training content for Junior footy and
 - Ensure every training session is Safe, Organised, Engaging and Fun.

Use the CHANGE IT approach to modify the activity for inclusion, challenge and skill development; to maximise participation and better meet player needs and objectives.

Three Levels of Progression

Building on the success of the NAB AFL Auskick program, the Junior Coaching Curriculum is based on three sequential levels, designed to extend skill development over three (or more) years of participation.

LEVEL 4

Designed for players turning 7 and 8 who are transitioning over from Auskick to Junior Footy. This level focuses on skills needed to work as an individual.

LEVEL 5

Designed for players turning 9 and 10 beginning the transition to working in small groups.

LEVEL 6

Designed for players who are under 11 and 12, focusing on skills needed to work as part of a team.

A Game-Sense Approach to Coaching?

A key focus of each training session is to teach the fundamental skills of football using game sense and constraints-based learning approaches. Skills that are learned within a gamebased context better transfer to the game, and players develop a greater understanding of how to play the game. It also increases energy, motivation and engagement so that kids have more fun and want to come back for more!

What is it?

- Playing games to practice skills, rather than only practicing skills in isolation of the game (the traditional approach).
- Games are carefully designed to emphasise specific skills and strategies.
- The coach's role is to question and guide players towards a better understanding of the game and the required skills.

Why use it?

- Children learn to adapt their technique to game situations;
- It teaches tactical understanding of the game;
- It appropriately applies the principle of training specificity.

Transfer of learning from training to game day depends on the extent to which training resembles game day.

What is Skill?

SKILL = TECHNIQUE + ADAPTABILITY UNDER PRESSURE

The fundamentals of technique are important! But equally important is the ability to adapt technique to any game situation, and football is a dynamic game with constantly changing situations. Skill is the ability to execute in competitive situations that differentiates players and teams.

Curriculum Design

The Junior Coaching Curriculum has been designed around the principles of play which describe the three phases of the game and follows the premise of 'using the game to teach the game'.

Three Phases of the Game

How to evolute this

Each training session in the Junior Coaching Curriculum targets one or more principles.

Principles of Play Glossary

		What does this mean?	How to explain this concept to children
ATTACK	Penetration	Advancing the ball towards the goals	"Get the ball moving forward"
	Possession	Keeping control of the ball by either holding it up or making simple lateral passes until better options are available	"Play keeping's off until you see a chance to move the ball forward".
	Support	Provide support and safe passing options to the player with the ball	"Help the player with the ball find space or create a passing option by finding space yourself and calling for the ball"
	Movement	Moving to create space for both yourself and others	"Continuous movement to find space and get the ball"
DEFENCE	Delay	Positioning of the defender closest to the player with the ball to slow the attack by preventing the ball being moved forward	"Make it hard for the player with the ball to pass or move quickly"
	Pressure	Quickly closing down the player with the ball to minimize the time and space in which the ball can be controlled, with the aim of causing a poor decision	"Get close to the player with the ball to pressure and cause a turnover"
	Cover	Denying passing options to the player with the ball by covering attackers offering support	"If you're not closest to the player with the ball, your role is to cover the passing options"
	Depth Balance	Helping the defence remain compact by closing gaps as they arise (i.e., zone defence)	"Cover free space in front of the player with the ball by maintaining a similar distance between all defenders"
rest	Gain Advantage	Anticipate and prepare for the contest through body positioning relative to the ball, teammates and the opposition	"Move your body so you have the best chance to win possession, support your teammates or defend the opposition"
CONTEST	Outnumber	Identifying opportunities to outnumber a contest by positioning yourself to support teammates to win possession.	"Move over to the contest so you can support your teammates to win the ball"

Training Session Structure

The junior training session structure is designed to sequentially build kids football skills and confidence over ten training sessions using a game-based approach whilst incorporating fundamental skill development throughout the program. Each training session runs for 70 minutes and is designed around the four quarters of a game with a pre-game activity section for unstructured play.

Each of these sections are important for player enjoyment, engagement, and overall game and skill development. Refer to the following diagram which outlines the purpose of each section:

	Duration	Focus	
PRE-GAME	Up to 15min	Fun, Play & Exploration (no coaching!)	Unstructured play is important for skill acquisition, particularly with regards to developing creativity
QUARTER 1	10min	Energizer (Warm-Up)	The aim is to have a fun warm-up with an emphasis on fundamental movements
QUARTER 2 (2 Rotations)	10min	Fundamental Skills (High Repetition)	The aim is to practice the fundamentals skills of football with lots
	10min	Decision Making Task	of repetition
QUARTER 3	15min	Team Task	Opportunity to practice applying the fundamental skills to game situations when working as a team
QUARTER 4	10min	Game	Opportunity to play the game, whilst rules are applied to emphasise specific skills

- Ideally, every player has a football or share 1 between 2
- Each player has 60 touches of the ball every training session
- All players are engaged and having fun

REMEMBER: No laps, lines or lectures

-\....

HELPFUL TIP

If time and space permits, have all your games and cones set-up prior to the players arriving to ensure no time is wasted during the training session. You can then just rotate through activities on the go.
